

Dear Families,

Wow I did it I ran 13.1 miles for the Bright Spaces Charity! Thank you to everyone who sponsored me and to those children for their sponsored walk efforts. So far we have raised £847, which is incredible.

In Team news, we have some goodbyes to say to Hannah our Toddler Room Nursery Nurse and Angela our Toddler Room Manager. We wish them both all the best in their new adventures. But also a big warm "Hello" to Emma who is back as Senior Cover, so if you see her around be sure to introduce yourself.

Next week we look forward to our duckling eggs arriving, which really is a special experience for the children.

I hope you enjoyed a lovely Bank Holiday weekend.

Best Wishes

Clare Ashton

Nursery Manager

Sunflowers

We hope you all enjoyed your hand decorated plant pots from your children for Mother's Day. We would love to see photos in person or on Tapestry of your growing sunflowers!

- **Ducklings arrives**
Monday 13th May
- **Bank Holiday – Nursery Closed**
Monday 27th May
- **School Report Meetings (Kindergarten)**
Monday 17th June
- **Parents Evening**
Tuesday 2nd July

Babies

In our Babies, we have been exploring the farm, the soil and looking at different animals, Some of our older children have been making the noises that each animal can make, We have also enjoyed spending lots of time in our garden enjoying the lovely weather

Toddlers

This last month the Toddlers have been very busy. We celebrated Mother's Day with our Mummy's at the Mother's Day Tea Party. We have been interested in using different tools to paint and print with, our favourite has been Duplo. We have been looking at signs of Spring, such as different flowers and baby animals. Some of us were very lucky and got to visit Marwell Zoo where we had a picnic lunch and saw lots of animals, including giraffes and penguins.

Transition

Transition have been collaging their own daffodils, as well as doing observational drawings, further developing their fine motor skills. "The Very Hungry Caterpillar" has been an interest which led us to learn about the life cycle of a butterfly. We then created our own butterflies folding paper with paint. We also have been practising our turn taking by matching the different parts of the story in small groups.

Kindergarten

The Kindergarten children have been practicing their fine motor development and hand-eye coordination. They have done this through their Easter provocation. The children have been weaving wool through their chosen shapes before decoration their own egg's and talking about new lives in Spring such as chicks and lambs.
